

Aquifer Solutions, Inc. Awarded Federal GSA Multiple Award Schedule Contract for Remediation Services

February 17, 2008. Design-build environmental services provider Aquifer Solutions, Inc. (www.aquifersolutions.com), a woman-owned small business based in Evergreen, Colorado, was recently awarded a U.S. General Services Administration (GSA) Multiple Award Schedule (MAS) contract under schedule 899.8, Remediation Services.

Aquifer Solutions is an international leader in environmental restoration of hard to treat contaminants in soil and groundwater. According to Wilson Clayton, Aquifer Solutions Senior Vice President, "The GSA contract will help Aquifer Solutions to leverage our prior successes as a federal facility prime remediation contractor. Aquifer Solutions has a unique blend of industry-leading experience in remediation of explosives, chlorinated solvents, metals, and perchlorate as well as other constituents, and we are excited about continuing to expand our federal client base."

Aquifer Solutions, Inc. is a full service design-build firm with experience spanning a wide range of projects, from infrastructure and construction projects to vadose zone and groundwater characterization and in-situ groundwater remediation. The company has worked in 16 states in the U.S. as well as Canada, Mexico, and Australia. In addition to serving as a prime contractor on federal facility remediation projects, Aquifer Solutions clients include private firms, law firms, and consultant partners. The company was selected by Inc.com in 2008 as the 30th fastest growing environmental services firm in the U.S., and was awarded the 2008 Project Merit Award in the remediation and restoration category by Environmental Business Journal (EBJ).

The GSA schedule is a federal contracting vehicle that can be used by all federal agencies to procure Aquifer Solutions, Inc. remediation services. The GSA schedule allows multiple awards under various programs, including the American Recovery and Reinvestment Act (ARRA). GSA's multiple-award schedules streamline acquisition of commercial services for federal government customers by providing federal agencies and others with a quick and efficient means of addressing their environmental needs. This streamlined procurement approach significantly reduces the time required for federal agencies to procure Aquifer Solutions, Inc. services because GSA has reviewed the firms' capabilities, negotiated billing rates, and pre-qualified Aquifer Solutions, Inc. to provide environmental remediation services.
